

GROWING CLOUD NATIVE TOGETHER

KCD Monthly Organizer Digest

February 16, 2024

Congratulations to Oslo and Kerala!

The first KCD of the year was in Oslo, Norway held at the local Microsoft office building with over 150 attendees, selling out in December!

And KCD Kerala was buzzing with over 540 attendees!

Congratulations to both teams! Keep an eye out for their transparency reports via cncf.io/reports.

Up next are KCD in Latin America! Some hybrid, so check out the content virtually, as some sessions will be hosted in English:

- [KCD Guadalajara, Mexico](#) on February 23 - 24
- [KCD São Paulo, Brazil](#) on February 23 - 24
- [KCD Heredia, Costa Rica](#) on March 2 - 3

THIS MONTH'S CNCF REQUEST

Stay connected to the community

Help your attendees get to KubeCon + CloudNativeCon Paris, 2024

- See your community at the event, by offering your attendees a 15% discount. You can also incentivize your attendees with on-site only perks. KCD organizers can share the code **KCEU24KCDATT** for those [planning on registering for KubeCon + CloudNativeCon Paris](#)!
- Or you can simply help your attendees stay up-to-date with upcoming KCDs by asking them to subscribe to the KubeWeekly newsletter: cncf.io/kubeweekly.

THIS MONTH'S
BENEFITS

Will you be at KubeCon + CloudNativeCon in Paris?

As far as I can tell (via the [#kcd-organizers Slack poll](#)), there will be over 30 organizers attending with 5 undetermined. Please answer the poll if you have not already, so I may invite you to the global KCD Organizer gathering once the details are finalized.

With that, I want to open up the request for time at the “Community Events” kiosk that will be in the project pavilion. Please choose multiple times that work for you, and I will reach out with your final time slot once I see everyone's availability. NOTE: this Kiosk is going to be shared with local community groups that host meetups, but KCDs have the prime slots during breaks, lunch, and the KubeCrawl + CloudNativeFest.

The deadline for signups will be the Friday before the event, so March 15 by midnight Pacific Standard Time.

[Let us know your availability](#)

THIS MONTH'S
OPPORTUNITY

KubeWeekly Newsletter

In case you did not see my post in the organizer Slack channel, each Friday through Thursday CNCF will accept submissions of *articles* for the newsletter, if you wish to submit a blog post outside of [cncf.io](#). Interested? Send it to the team at kubeweekly@cncf.io

Guidelines for publication:

- Vendor Neutral

- Any Cloud Native project can be covered
- It can be community-related
- Submit one article at a time to avoid one company or project being over-represented
- Articles should be 3-week or younger
- Length of each article is varying and won't affect the newsletter size since we just link it
- Can even be an update in a GitHub repository

.....

A reminder that your contribution of time is invaluable. And your dedication to making cloud native ubiquitous, is very much appreciated. We are always aiming to work better together. 🙏

Audra Montenegro
